

LIPSCOMB + NISSAN AERO PROGRAM

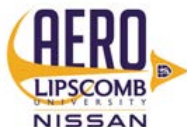

For qualifying HS Seniors (rising college freshmen) who plan to study Engineering at any Secondary Institution.

87% of 2021 AERO scholars were able to test one math class ahead at the end of the program.

Questions? Email engineering@lipscomb.edu

"I was unsure if I would enjoy engineering in college and aero helped me get a better understanding of some of the things I could be doing."

QUALIFICATIONS:

- Preference given to students who scored 18-25 on Math ACT
- Unsure about readiness for Calculus
- Admitted to any university or community college, and plan to enroll Fall 2022
- Intend to study Engineering or other relevant STEM major
- Commit to attend either AERO week (July 18-22 or July 25-29) Monday-Friday, from 8:30 a.m. to 3:30 p.m., and half-day on Saturday (either July 23 or 30).
- Provide own transportation to the Lipscomb's Fields Engineering Center.
- \$50 registration fee, daily breakfast and lunch provided. Fee assistance available.
- Dorm accommodations may be arranged; additional \$325 for 6 nights lodging and dinners.

WHAT:

Jump start your engineering major!

In a one-week Pre-College intensive:

- Build your math skills with other aspiring engineers.
- Connect with industry professionals on site visits.
- Experiment with hands-on engineering.

"AERO made math more valuable."
